I think it important to note that we are governed by an administration preaching state's rights. Each state has the right to build a nuclear reactor. What about state responsibility?

I have the right to own a dog, I also have the responsibility to clean up after it.

This is a desert, not a dump. Clean up after your own dogs.

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
